

BYING MOTOR CARAVAN (CAMPER) – MAY 2010

After Kjell sold the house at Kvernaland, we found out that we would buy a camper and drive and stay in that when visiting people in Rogaland. We had found it on Internet, looked at it earlier and made an agreement to get it the 25th of May. We bought it at “Grimstad Caravancenter”.

We took the train from Gran to Oslo.

Waiting for the train to arrive.

There is no train connection from Oslo to Grimstad, so we went by bus. Here there is a 10 minute break on the way.

We traveled with Sørlandsekspressen.

We stayed at Grimstad Vertshus. It is a reasonable priced and very good hotel. Good food and nice staff.

The camper is waiting for us.

Here we are explained how to use all the different devices in the car.

Electricity connection.

Toilet container.

Empty the "gray water" tank.

The marquee.

Control panels.

Here was a light bulb finished.

The entrance to the offices.

Signing the purchase kontrakt.

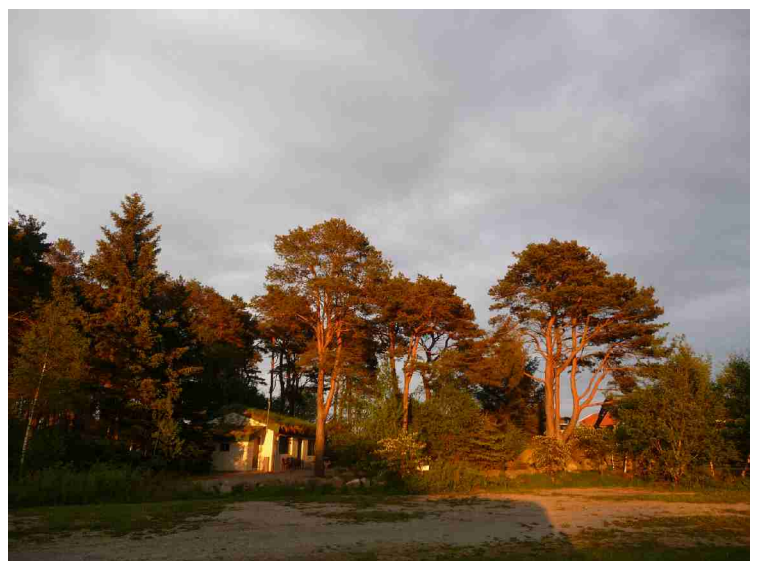

Finally ready to go.

Outside Grimstad Vertshus.

This is at Vølstadskogen Camping in Sandnes.

Evening mood at the camping ground.

Below are some pictures from the interior of the car
