

FRYSJØDAMMEN – APRIL 2021

The 25th of April we drove a round in [Finnmark](#) (Finn Forest). The route is indicated on Google Maps.

Map of Frysjøen and Tysjøen is copied from [Norgeskart](#).

This is the western end of [Frysjøen](#). There is a dam here, Frysjødammen. From here, Tysjøåa flows further west to Tysjøen.

There are a few birds by the dam. We think it is [goldeneye ducks](#).

View southeast of Frysjøen.

View northeast of Frysjøen.

This is the dam.

Just below the dam there is a bridge across the creek.

Here we see the dam from the bridge.

View down Tysjøåa.

The dam with Frysjøen in the background.

This house is located a short distance from the dam.

This is a view of Frysjøen from the southern end.

Another picture from the southern end of Frysjøen.

This is the school in Frysjøberget. It was closed down many years ago.

This is the school in Frysjøberget. It was closed down many years ago.

Here we have come a little further north. Mortholmen to the left in the picture.

Here we saw a grouse. This is the first time I have seen a grouse. As we went closer to get a better picture, it flew.

Here we look down on a small farm called Brauter. It was one of the filming locations in FARMEN 2018. It is located on the east side of Frysjøen.

This is Gjedtjernet farm which was the main filming location of FARMEN 2018. It is located by a pond called Gjedtjernet.

FARMEN is a Norwegian reality series.
