

GRAN – JEVNAKER THE 19TH TO THE 20TH OF SEPTEMBER 2020

I have used an optician at Gran. Now it was so long ago that I had done a vision test that I thought it was time for a new test. We planned to make a few visits on the same trip.

I did the vision test at [Brillehjørnet](#). The vision was perfectly fine, but I needed new glasses with lower strength.

After we had been to Brillehjørnet, we visited Svein and Torunn. There we were served [chili con carne](#). Afterwards we traveled to Jevnaker where we ate with Silja at Grand Shanghai. We were still full after eating at Svein and Torunn's, so we had just a small bite.

After we had been to Jevnaker we went to [Klækken Hotel](#) where we had booked a room.

The room looked something like this.

The hotel is in a rural location. This is the view.

More views.

I call this sneak photography.

Klækken Hotell has a [history](#) dating back to 1346. It was originally one of the large farms on [Ringerike](#). The hatch has been used as a bank office, county school and in 1833 the place received a guest grant. From 1928, the hotel has been run as a popular tourist hotel. During the war, the place was set on fire, rebuilt and then seized by the Germans and used as a birthplace. It was not until 1945 that Klækken could be reopened as a hotel.

The hotel has invested in various [art](#) both indoors and outdoors.

Here I am outside the hotel entrance when we are going to leave.

Then we drove down to [Kistefos Museum](#). We drove past bridge foundations for the new [E16](#) that will go from [Hønefoss](#) to [Lunner](#).

Here is the entrance to the museum. We did not have time to go in, because we had agreed on another visit that day.

At the parking lot of the museum was a herd of cattle.

On the way up to the main road we passed another herd of cows.

We also drove by [Torbjørnrud Hotell](#) in [Jevnaker](#) to see what it looked like there. It is idyllically located right by the [Randsfjorden](#).

Many trees had acquired strong autumn colors.

Here we come to Sløvika. The place is best known for the campsite, [Sløvika Camping](#).

Here is a sign to [Grindvoll](#).

Today's visit was to Per-Egil and Solveig who live at Grindvoll.

After good treatment there, it was time to drive home again.
