

Round trip 20. June – 4. July 2017

The drive to Songe and Røed Camping.

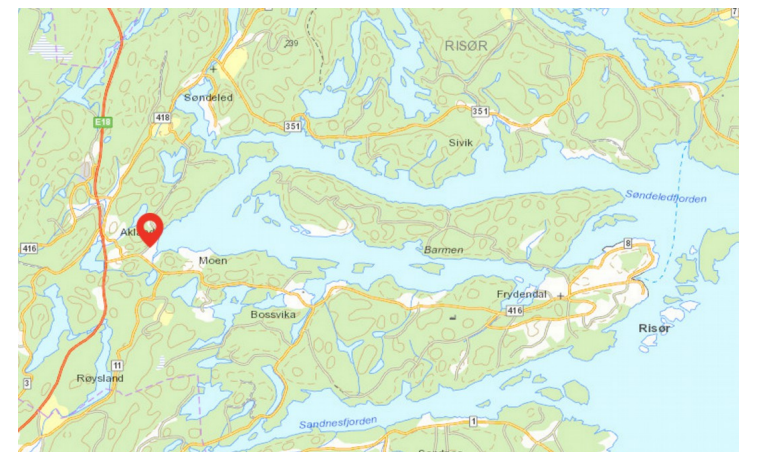

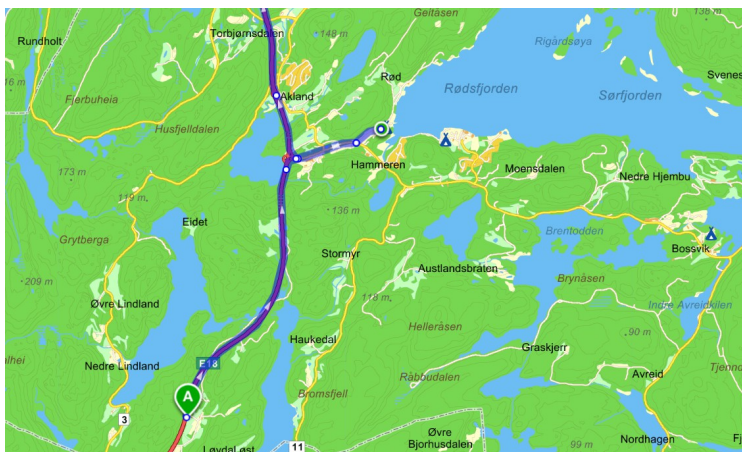

This day we went to [Songe](#) near [Tvedestrand](#) to deliver clothes that we had collected to the humanitarian aid organization [Norge -Moldova](#). They have storage rooms in Røysland old school. After the delivery was done, we drove to Røed Camping and stayed there for the night.

This is Røysland old school.

Here is clothes and miscellaneous stuff outside the entrance. We got unloaded from the camper before those who should collect the stuff arrived.

[Røed Camping](#) is here.

Some of the cabins on the site.

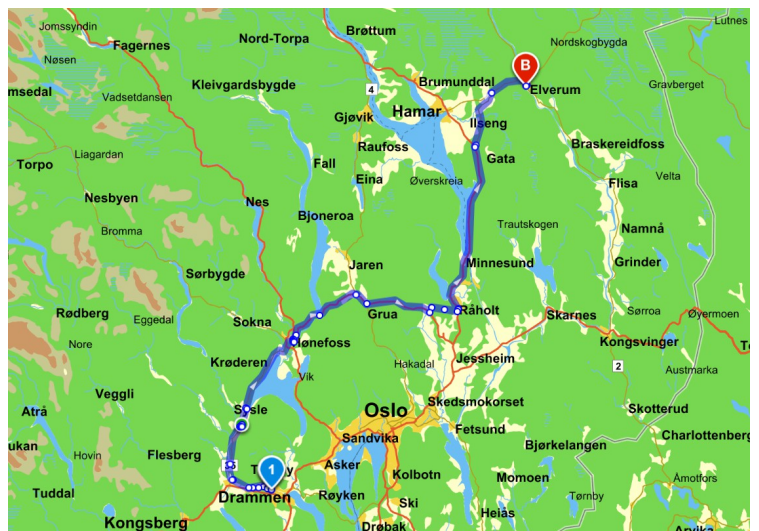

The farmhouse.

The next stage went to [Drammen](#). We chose to go via [Porsgrunn](#), [Skien](#), [Siljan](#), [Svarstad](#), [Hvittingfoss](#), [Eidsfoss](#), [Hokksund](#) and [Mjøndalen](#).

The entrance to [Drammen Camping](#). We visited Bjørn and Bente, who lives nearby the camp site.

The next day we went on to [Elverum](#).

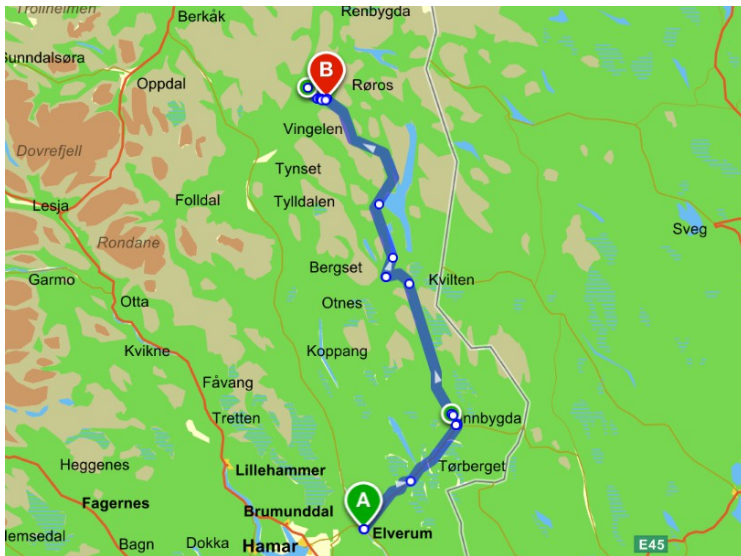

We stayed at Elverum Camping. We were there for 3 nights in June as well.

At Elverum Camping they have a fast food kitchen that has very good food. We have lived in Thailand for 10 months in total and ate all the food there, but what is made at this street kitchen is the best Thai food we have eaten.

The travel route on the 4th day went via [Trysil](#) to [Røste Hyttetun og Camping](#) at [Os](#) in [Østerdalen](#). On the way we visited Helge and Torill, who lives in [Dalsbygda](#).

Aerial view of the campsite. There were not so many cars and caravans when we were there. It was raining when we arrived in the evening, but it was nice weather the day afterwards.

Day 5 it went via [Tynset](#), [Follidal](#) and [Dombås](#) to [Otta](#).

We went to [Sæta Camping](#), just south of Otta. The site is situated right beside [Gudbrandsdalslågen](#). A nice little site.

This is the home for those who run the site.

Here we look further.

Looking towards the entrance.

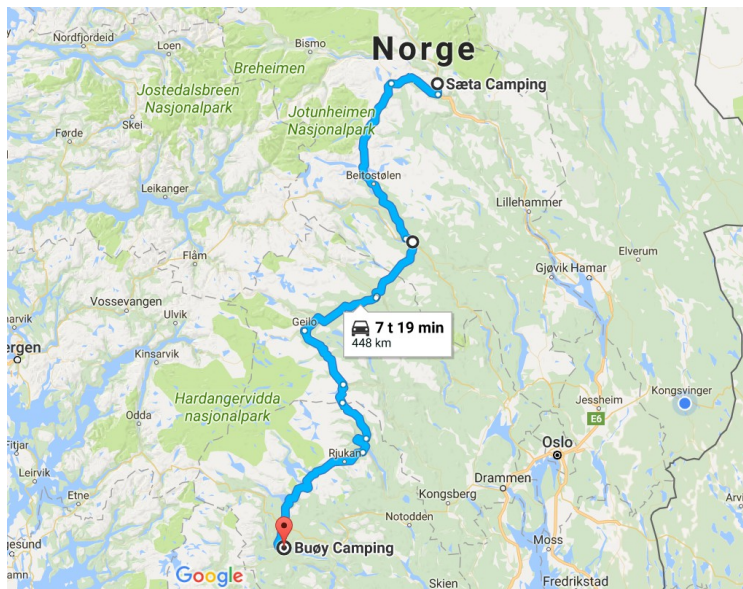

This is the river.

After we had arrived, we were visited by Palmar and Elsa, who lives in Otta.

We met them on a round trip in [Georgia](#) in 2016.

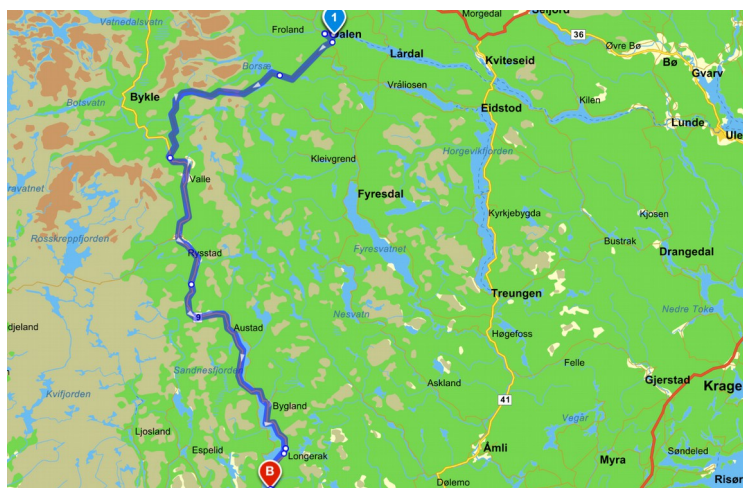

Before we left on day 6, we checked how the weather forecast for [Sognefjellet](#), because we had planned to go to [Sogn](#). The forecast predicted fog and 0°C, so we did not take the chance to travel that way. We went via [Vågåmo](#), [Valdresflye](#), [Fagernes](#), [Gol](#), [Imingfjell](#), [Rjukan](#), and [Åmot](#) to [Dalen](#).

[Dalen](#) lies inmost of the lake [Bandak](#). Vi tok inn på [Buøy Camping](#), that lies on an island in the river [Tokkeåi](#), right before it flows out into Bandak.

This is the building where the reception is located.

We stayed on this field right next to the reception building.

Day 7 we went over the mountain to [Setesdalen](#) and down the valley to [Byglandsfjord](#).

We stayed at [Neset Camping](#) that is situated next to [Byglandsfjord](#).

Night image from the site.

Day 8 we went via [Sirdalen](#) and [Tonstad](#) to [Sandnes](#).

We stayed at [Vølstadskogen Hytter og Camping](#) as usual.  
 We had 5 nights there to visit family. We had a sausage party on Friday with Hemming, Anne Siri, Maria, Oline and Johanne. Stian was there too.  
 On Sunday we visited Janette, Geir, Maren and Mathilde.

Monday, July 3, we traveled home. We were going to sleep at Tvedestrand, but when we got there, there was wind, rain, hail and thunderstorm so we took the whole stretch on the same day.
